

Skype™ Call Diverter – B3G

Introducing Skype Call Diverter, a powerful new device that integrates your computer with your phone line, making it possible to utilize the Internet to place long-distance phone calls while still allowing you to use your phone for all existing services.

Skype Call Diverter is both easy to install and simple to use. Once connected, simply call your existing home line from a cell phone or pick up your phone and dial * to open up a world of Internet calling!

While you are away from your computer, Skype Call Diverter can forward all incoming Skype calls to your mobile phone. The Diverter can also forward your PSTN calls to Skype.

Using your cell phone and the Diverter unit, you can literally contact anyone in the world at no or little cost! Simply use your cell phone to dial the number where Diverter is connected and use it to redirect your call to any Skype contact or any phone number in the world using SkypeOut.

With Skype Call Diverter you can turn your cell phone into a Skype phone!

Features

- Unlimited free long distance calling anywhere in the world! (requires Skype Call Diverter B3G Bundle)
- Unlimited free long distance calling in North America with SkypeOut plan
- Allows to place and receive both VoIP calls and regular PSTN calls on your phone
- Powerful forwarding that allows to forward all incoming Internet calls to any phone number including your cell phone
- Ability to get a local dial tone by calling any Skype account connected to a Skype Call Diverter
- Phone rings for all incoming VoIP and PSTN calls
- VoIP or PSTN calls selected by phone key (*)
- Integrated voice mail allowing callers to leave messages avoiding phone provider service fees
- Excellent sound quality. Better than regular long-distance phone lines.
- Quick and easy setup, connects to any phone jack using regular phone cord and your computer using USB cable

Benefits

- Place outgoing long distance calls from any regular phone or cell phone and save on your long distance fees!
- Accept incoming long distance calls placed over Skype™ network on any regular phone or cell phone
- Seamless switching between making Internet calls or regular phone calls over existing lines
- Save even more money by taking an advantage of integrated answering machine and ability to get a local dial tone for incoming Internet calls
